SECRETARY'S MINUTES

Title of Paper: **Multicab Stop Time Monitoring System using AI Based Camera Detection**

Name of Proponents:

Michael Angelo Angeles

Elton John Muralla

Jesse Pepito

Zurich Cabanelez

Type of Defense: () **Proposal Defense** (☒) **System Defense** () **Final Defense**

Number of Rounds: (☒) **1st** () **2nd** () **3rd**

Date/Time & Venue: **April 15, 2026 || 2:00pm || IT Faculty Room**

Adviser: **Peter Joseph G. Rabanes**

Panel Chair/REC: **Dr. Rozanne Tuesday G. Flores**

Panel Members:

Anna Rose C. Tan

Roanne Zoe Cayan

Secretary: **Czarissa Louise A. Navidad**

Name of Panel	COMMENTS/SUGGESTIONS
Dr. Rozanne Tuesday G. Flores	• Expand locations for testing, use locations with more frequent traffic. • Reports should not be static. Allow generation of custom dates. • Improve report generation file. Make sure it can be used by the client (TMC). Headers, signatories, etc. • Make sure the data that's being recorded is useful and valuable. E.g. Location, Timestamp, Plate Number, Make/Color of Vehicle (picture, if possible). • Data is very lacking. Test using more videos. • Purchase your own camera for testing so that you can record the Plate Number as well. • Add a Login functionality. Improve dashboard UI. • Upon entering the yellowbox, system should capture the plate number of the multicab. If a violation occurred, then store the plate number in the database. If no violation occurred, disregard the captured plate number.

Name of Panel	COMMENTS/SUGGESTIONS
Anna Rose C. Tan	• Improve dashboard UI. • TMC dashboard should have a notification every time a violation is detected. •

Name of Panel	COMMENTS/SUGGESTIONS
Roanne Zoe Cayanan	• Improve device demo specs for next time. • Identification of other vehicle type is not important here. • Improve dashboard design.

Name of Client	COMMENTS/SUGGESTIONS

Overall recommendation:

- Make sure to demo your system to your client and have them evaluate. Take pictures during demonstration and take notes of their comments.
